

# POWER HOUR

## INTRODUCTION

Signing up for a Power Hour, an online consultancy session with Get Synergised is a really great investment of your time and money to help you unlock challenges and find solutions. There is nothing more annoying than investing in something and then finding you do not get what you were expecting from it.

With that in mind, here's everything you need to know about your Virtual Power Hour including offline preparation and a collation of recommendations.

## OUTLINE

- Your call is your time to solve the specific issues you are facing. There will be an opportunity to send up to 3 questions or issues before hand, so the session will be structured to be sure you get the most out of your power hour.
- The session will be conducted by Zoom, using the screen sharing function where applicable. This works better on a desk top, opposed to your phone.
- It is not "business as usual" at the moment, and it's worth spending some time on the call discussing how Covid-19 is affecting your organisation and those you might want to engage with.
- As preparation is key I will ensure I take planned time ahead of the meeting to do relevant research and read up on your organisation so I can better understand your challenges.
- The session is designed to mirror face to face consultations which are friendly, two way conversations, usually in a coffee shop, so grab a drink!
- An invoice will be sent before the Zoom call for payment to be made prior to the meeting.
- After the session I will send you a recording of our conversation and a write up of the key recommendations that I think you will find useful.
